*The
Bridget & Brad
Story*

*The Bridget and Brad story grew personal for us
with each detail we could be a part of...*

*...from bridesmaid jewelry
and pearls for the bride,*

*to a custom ring bearer
dish and keepsake.*

Bridget needed a custom wedding band to match her existing engagement ring, and Brad wanted a ring to match his wife's but with a two-tone twist--and we made the perfect match for the perfectly matched pair!

Brad, the groom...

*How does this jewelry become
the perfect and most sentimental
gift given to a bride?*

It all started with LOVE.

Brad called and said, "I want to create a piece of jewelry for my new bride."

"And I want it to incorporate a piece of jewelry from each of our families, and from an uncle who was very special to me."

After some discussion with his mom and his future mother-in-law, Brad was able to get a diamond from each of them, adding to his uncle's diamond.

As fate would have it, each diamond was the perfect size to make a graduated style three-stone pendant. And it just had to be the infinity style!

Cast and set in 14K yellow gold with an accompanying box chain, this diamond necklace is not only an elegant wedding gift...

... but also a cherished heirloom intertwining the families into one perfect symbol of love.

And they lived happily ever after...
